

Travel Money

These days you have lots of options for managing, accessing and handling your foreign currency while travelling – Travelers' Cheques & money belts are pretty much extinct now!

Most recently Global Golf has been using a NAB Traveller Card. This is basically a Debit MasterCard which you pre-load with whatever foreign currency you require – this means you know in advance what Exchange Rate will apply. You can then use the card for purchases and/or to withdraw cash from local ATM's. All the major banks have similar products with similar sounding names. Here is a link to the [NAB Traveller Card](#) site.
